### About This Content

Its thick fur glistening in the moonlight, the great wolf charges through the forest as a hunting party gives chase with torches lit and weapons drawn. Dodging an arrow, the wolf leaps over a fallen tree and tumbles into a wide clearing. With the soldiers now emerging from the darkness and closing in fast, the wolf bristles, stands on its hind legs and bears its teeth, ready to fight for its life. This is no ordinary canine...

These poor hunters are soon to learn that the forest is not their friend in the black of night. Will you brave the dangers of Silent Forest and be lucky enough to come out in one piece?

English

Facing off with the Naga horde, Gunther's rage turns truly berserk and he loses himself completely in the madness of the moment.

A seemingly endless procession of sword-wielding serpent women file out of the ruins, replacing each of the warriors with three more.

Lost in fury, Gunther fails to heed the warning and a loud curdling shriek let loose by the Nagas puts a pause to the battle.

**Gunther**

DLC downloads and installs but there's no option to play this hero, or the elementalists, which is unfortunate because otherwise it's a great game.
