If you want to spice up your game and get to crab fishing, this is it. It's a solid implementation of crab fishing and very close to the TV show. New minigames are: Sorting Crab and stacking pots (on the big crabbing boat). The absolute worst purchase I have ever made on STEAM. Do NOT, I beg of you, DO NOT BUY THIS DLC. I don't even know where to start.

- 1.) When retrieving pots sometimes you just can't. Literally, the prompt will not activate and you will not be able to retrieve the pot. Ever. If it does this...it's gone. I had an entire string of pots unretrievable. Extremely frustrating.
- 2.) Controls of the boats. 2 new boats in this DLC that are virtually unusable. It's probably the worst controls I've seen in a game and I've played a lot of them. Don't even get me started on trying to use the crane... that's a whole other fun time in itself. And by fun i mean it'll make you want to pull your hair out trying to use it.
- 3.) It's just overall awful...i'd love to say something positive about the DLC, but there literally is nothing you can say good about this DLC.

Want crab fishing? Wait for the deadliest catch game later this year to be released. Save your money and forget you ever saw this DLC.
