Synopsis Meet John - a 12-year-old who is obsessed with helping others learn to read. John is a beginner who knows how to read, but he wants to help his friends learn, too! He uses his own experiences to teach his friends to read. They love to read, and their friends' excitement helps them succeed. Readers of all levels can enjoy this book for its positive message and exciting read-aloud story. If you could learn to read, would you want to? Or would you want to help someone else learn to read? Or maybe you'd like to share your own experiences with other people, helping them learn to read as you have. After reading this book, readers will come away with positive messages and an exciting read-aloud story. Would you like to become a hero like John? We're not sure! All children have the ability to learn to read. The first step is to get motivated to read. Teachers play a very important role in getting children motivated to read. John's teacher encourages him to read, he shares his stories with his friends, he helps his friends, and his friends' friends read as well. This book shares a fun and exciting story about what motivates children to read, and encourages them to share their own experiences. It's a book for the whole family! This book is both a story and a tool for teachers. It is written in a way that will work for any audience, from pre-K to fifth-grade. Teachers can use this book to encourage children and inspire children to read. Teachers should consider themselves heroes, because they inspire children to read. Read this book and share the message with your colleagues. You will find the book inspiring and motivating, and you may be inspired to inspire others. This is a must-have book for teachers of all ages. Have you ever wanted to help someone to read? This book is for you. Share your own experiences and stories with your friends and family. Bring this book home, and share it with your family. This is a book for all ages. Specifications Ages: All ages Audience: Anyone who would like to learn to read Language: 82157476af
